Prof. Fatchiyah, PhD on IGN-TTRC International Conference

On the third year to build a cooperation between universities in Indonesia dan Germany which is funded by DAAD is filled with Training of Trainer and Student Course for Module 3 IGN-TTRC Biodiversity entitled "Population Genetic Analysis in Plants". The training was delivered by Dr. Daniela Guicking from University of Kassel Jerman on 14th to July 26th, 2013. He was held by two of his students, Malte Zirpel and Jann Buttler. The participant from UB who achieves the first winner of ToT is Drs. Sentot Rahardjo, M.Si. The third winner is a student who attends the student course, Arik Arubil Fatinah, S.Si. Both are from Biology Department of FMIPA UB. The detail fo the best participants, for Student Course are: 1. Hermi Ria Harmonis, S.Si. (Universitas Airlangga); 2. Dila Febria, S.P. (Universitas Andalas) and 3. Arik Arubil Fatinah, S.Si. (Universitas Brawijaya). And ToT are 1. Drs Sentot Joko Raharjo, M.Si. (Universitas Brawijaya), 2. Dr. Nunik Sri Aryanti (IPB) and 3. Dini Hervani, SP. MSi. (Universitas Andalas).

The second event was an international conference for students in Universitas Airlangga, The 2nd International Conference of IGN-TTRC with a theme "Biodiversity and Biotechnology for Human Life" on 19 to 21st August, 2013. This conference was attended by various students from universities in Indonesia and from University of Kassel Germany. UB's students who were selected to attend oral presentation were, 1 student for undergraduate (S1), 7 students for master program (S2) and 2 students fom doctoral program (S3). All of them are from Biology Program (S1, S2 and S3). On this conference, there were 4 keynote speakers, on the first day were Prof. Dr. Bambang Irawan, M.Sc. (IGN Council from FMIPA Universitas Airlangga, Suarabaya) with a theme "Biodiversity in Indonesia" and Prof. Fatchiyah, PhD. (IGN Council main course from FMIPA Universitas Brawijaya, Malang) with a theme "Bioinformatics be able to Handle the Large Amount of Information". On the second day, there was a lecture from Prof. Wolfgang Nellen (Head of IGN TTRC program from University of Kassel Germany) and Prof. Ir. Jamsari, PhD. (IGN council main course from Universitas Andalas, Padang). After those two days, it was continued with an oral presentation from the selected students and during the afternoon break, there was also a poster presentation from various students. UB's student who achived the third position in oral presentation was Dwi Anggoro Rahayu with "Taxonomy Status of Local Fish from Banyu Biru Lake Pasuruan Regency based on

Morphological Characteristics and Morphometric Analysis”.

The third activity which was ToT and SC for Modul 4 ‘key qualification’ was a workshop about how to write article in internasional journals and proposal writing to get an internasional grant with the strategy to write correctly in English, which will be held in Universitas Andalas Padang on 2th to 14th September, 2013. The speakers which are from Kassel University Germany are Prof. Wolfgang Nellen, Carlo Klein and Johanna Fung. The participants from UB who have passed the selection are Dr. Suharjono, M.Si. (a Lecturer of Microbiology FMIPA UB) as the participant of ToT. Firly Rahma Primula Dewi, Soraya, and Qonita Khasanah as the participants of Student Course for module 4 in Padang.

While for Student Exchange IGN, UB has passed the selection and having learning program of “DNA Sequencing” in ‘my GATC’ in Koln Germany. She is a student of fast track program from Biology Department FMIPA UB, Rista Nikmatu Rohmah who is a member of research team from Prof. Fatchiyah, Ph.D., and funded by DAAD scholarship with an additional fund from my GATC company Germany. This student exchange takes place for 2 months, from Agustus 15th to September 15th, 2013 [FAT/translated by agung].
